Non-Hazardous

Dissolvable stickers for use on water bottles containing hazardous substances

Bottles Containing Biological Hazards

Bottles Containing Chemical Hazards

Chemical Hazard Cages

Required:

1. Full substance name and date of administration on a non-dissolvable sticker placed on a yellow acetate or vertical cage card.
2. Dissolvable sticker in the lower right corner of the cage.

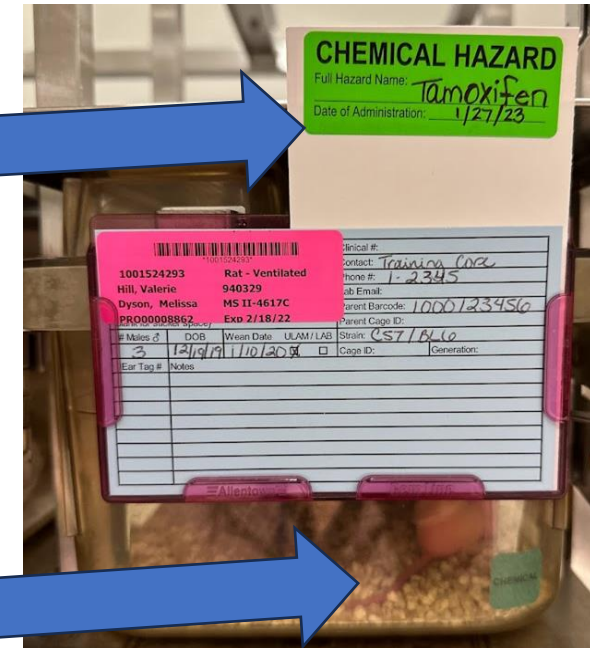

Non- dissolvable sticker on acetate

CHEMICAL HAZARD

Full Hazard Name: _____

Date of Administration: _____

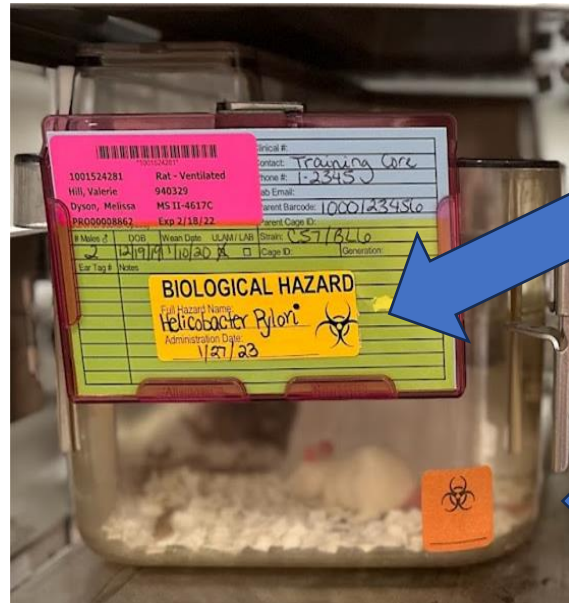

Non-dissolvable sticker on vertical cage card

Biological Hazard Cages

Required:

1. Full substance name and date of administration on a non-dissolvable sticker placed on a yellow acetate or vertical cage card. Note: for human derived substances, it is acceptable to abbreviate HDS on the orange biological hazard sticker.
2. Dissolvable sticker in the lower right corner of the cage.

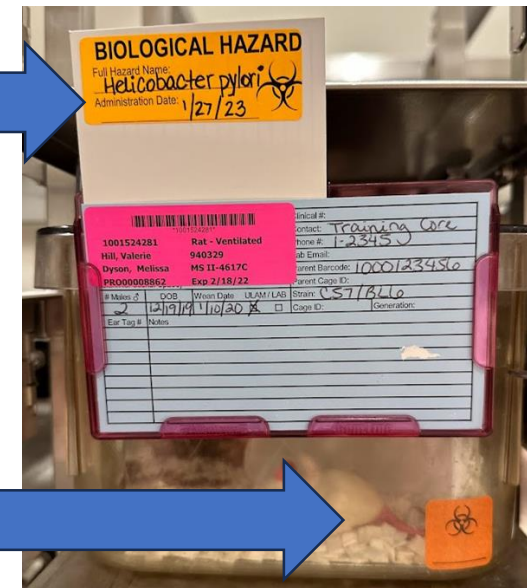

Non-dissolvable sticker on acetate

BIOLOGICAL HAZARD

Full Hazard Name: _____

Administration Date: _____

Non-dissolvable sticker on vertical cage card
