10-2. Informed Consent for Other Individuals

Completion of this section is required based on the response provided to question 10-1.5 indicating that the study includes the collection from primary research subjects of identifiable information about other individuals (including family members).

Hide Help

10-2.1* What specific information will be collected about other individuals (including family members)?

10-2.2* How will these individuals be referenced in the research record?

For example, full names, addresses, relationship to subject, unique identifiers, etc.

10-2.3* Will informed consent be obtained from these individuals?

Yes No [Clear](#)

10-2.3.1* Describe the plan to contact the individuals to obtain consent.

If 'NO' is chosen in 10-2.3, 10-2.3.1 does not appear, but the following warning does:

Because you will not obtain consent, a request for waiver of informed consent for these individuals is required..
