

ULAM Alopecia Assessment Form

Date:	PI:	Clinical Number:	Other Animal ID:
Vet personnel:	Social Housing: <input type="checkbox"/> Social <input type="checkbox"/> Protected contact <input type="checkbox"/> Single	Exam Type: <input type="checkbox"/> Cage -side <input type="checkbox"/> Sedated	

Mark the areas of alopecia/hair loss for each of 11 body areas and tail by shading. *Tail not numbered.

Describe type of hair loss in the comments below (overall thinning/slight hair loss, patchy hair loss, or large bald areas). Please indicate if any areas were shaved or if animal was jacketed or collared.

Comments:

Number of body parts (bp) affected	% body affected	Alopecia Score
0 bp	0	0
Up to 2 bp (+/- tail)	1 – 27%	1
Up to 7 bp (+/- tail)	27 – 64 %	2
Up to 11 bp (+/- tail)	72 – 100%	3

Calculate overall alopecia score by the chart above and circle. Do not add in areas of alopecia due to shaving, jacketing, or collaring.

Overall Score: 0 1 2 3

**For any score greater than 1, please consult with Faculty Veterinarian and record any associated diagnostic or treatment plan in the medical record.
