UNIVERSITY OF MICHIGAN

REPTILE SURGICAL RECORD (NOTEBOOK SIZE)

Principal Investigator:		**Date:**
Surgeon:		**IACUC Protocol #:**
Species:		**Animal/Cage ID:**
Surgical Procedure: **Number of prior surgeries:**		**Date of last surgery:**
Presurgical Evaluation:	Fasted: Y/N Duration of fast: Animal condition (body weight, BCS, mentation, etc.):	Species preferred temperature range: Warming device(s) used:

Preanesthetic and Anesthetic Drug(s) Administered:

Drug	Dose(mg/kg)	Route	Time

Analgesics and other medications:

Drug	Dose(mg/kg)	Route	Time

Recovery: (note anesthesia end time, observations every 15 minutes until recovery, time of recovery, return to home cage, body temperature, etc.)

Please ensure that all medications and procedures listed above are as stated in the approved animal use protocol.

Depth of anesthesia should be monitored at least every 15 minutes during anesthesia. The Investigator is responsible for maintaining a record of anesthetic and analgesic use and postoperative care.

REPTILE POSTOPERATIVE RECORD

Date/Time	**Observations** (note animal condition*, incision site, abnormal appetite, behavior, etc.)	**Treatments/Analgesics Administered** (drug, dose, route)	**Initials**

*Animal condition: 1 = Active 2 = Inactive 3 = Moribund 4 = Found dead

University of Michigan Reptile Surgery Record Cage Card

Principal Investigator:		**Date:**
Surgeon:		**IACUC Protocol #:**
Species/Strain:		**Animal ID:**
Surgical Procedure: **No. of prior surgeries:** **Date of last surgery:**		
Presurgical Evaluation:	Fasted: Y/N Duration of fast: Animal condition:	Species preferred temperature range: Warming device(s) used:
Preanesthetic and **Anesthetic Drugs Administered:** Drug Dose(mg/kg) Route Time		
Analgesics and other medications: Drug Dose(mg/kg) Route Time		
Recovery: (note anesthesia end time, observations every 15 minutes until recovery, time of recovery, return to home cage, body temperature etc.)		

All medications and procedures listed above are as stated in the approved animal use protocol

Depth of anesthesia should be monitored at least every 15 minutes during anesthesia. The Investigator is responsible for maintaining a record of anesthetic and analgesic use and postoperative care.
